TRADE/1639 - Physical meeting - Meeting with EUCCC DG

Event date: 07/07/2020 09:00

Stakeholder: European Union Chamber of Commerce in China

The meeting was convened to inform the members of the EUCCC about the progress made in the negotiations over the past months and to stress test the disciplines on level playing field in the Chinese context. EUCCC members representing different industries provided information on a confidential basis about the issues their respective industries have been experiencing in the Chinese market, notably the regime surrounding SOEs, subsidies and acquisition of state-owned assets. In this context, they fed back to the EU on the suitability and desired elements of the disciplines that are currently being discussed with China and overall supported the importance of the level playing field for a meaningful outcome in the negotiations.
