

Final

(ITS ESG) meeting

25 September 2020, Remote meeting

1. Introduction and adoption of the agenda

The ITS coordinators explained that the draft agenda was revised prior to the meeting to address the EDPB plenary's request to advance the ITS ESG's work on Guidelines 2/2020 in the context of the Art 64.2 GDPR opinion request submitted by one SA in relation to an Art 46.3(b) GDPR administrative arrangement with the PCAOB.

The ITS ESG members adopted the agenda.

2. Update of Guidelines 2/2020

The ITS ESG members addressed the updates suggested by the rapporteurs on redress and onward transfers / government access to data.

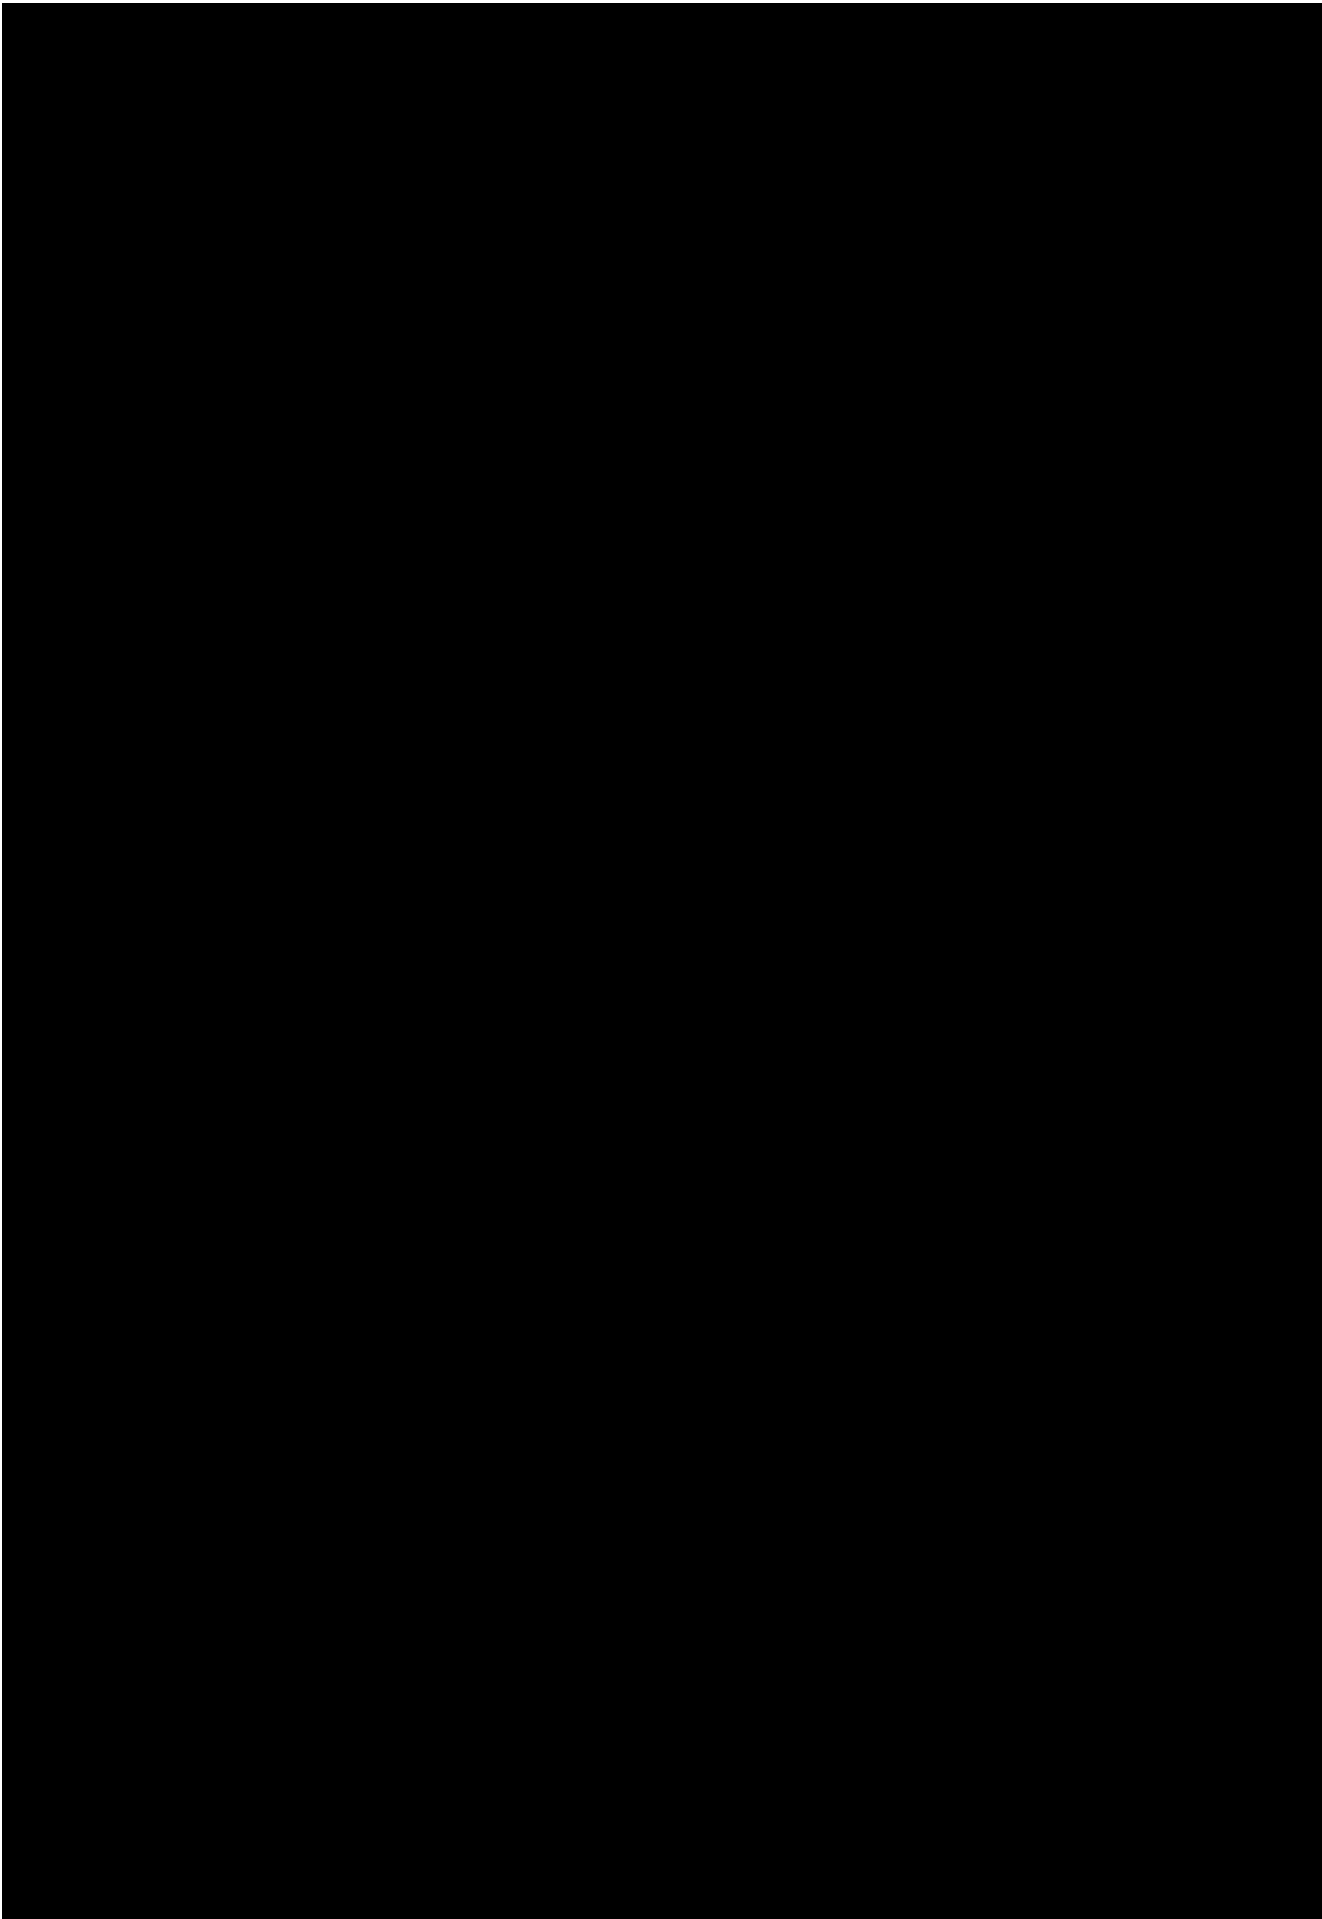

The ITS ESG members discussed the need to reflect the Schrems II judgment in the guidelines and the differences of transfers between public authorities and transfers between private entities. The co-rapporteur agreed to examine the full document and make proposals in that sense taking inspiration from the work of the Schrems II taskforce on supplementary measures for transfers between private entities, while taking into account the specificities of transfers between public authorities.

The ITS ESG members exchanged on one SA's suggestion to add some wording at the end of paragraph 38. Furthermore, they welcomed the new paragraph 43a on onward transfers.

In relation to redress, one SA suggested some changes that will be included by the rapporteur.

[REDACTED]

The ITS ESG members were invited to share any comments by 29 September 2020, and were informed that in case no comments are received, the drafting team working on PCAOB arrangements will use this as a basis for the meeting with the CEAOB and PCAOB planned on 1 October 2020.
