Dear [REDACTED],

Thank you for your time on the phone earlier. We can then confirm that tomorrow **Thursday 21 October from 15:00 to 15:30** the meeting can take place in **Berlaymont** (rue de la Loi 200).

As mentioned, according to our last medical protocol, the meeting in our premises can take place provided that provided that the all external visitor/s hold a valid COVID Certificate proving that they have been fully vaccinated, or tested negative, or recovered from COVID-19, or any equivalent evidence.

Upon your confirmation on the above, **participants' name and qualification** and the completion of the **attached excel list**, I can generate your **V-Pass**.

Should you have any query, please do not hesitate to get in touch with me.

Thank you and best regards,

European Commission

Cabinet of Executive Vice-President Frans TIMMERMANS

Subject: Meeting request - 21 October

Dear Ms. Nelen,

On the occasion of our [REDACTED] visit to Brussels on 21 October, we would very much value the opportunity to meet and discuss the outlook for Europe's hydrogen economy.

Uniper is a global utility with core markets in Germany, the Netherlands, Sweden, the UK and Russia. We are fully supportive of the Green Deal targets, and have ourselves committed to decarbonize our European portfolio by 2035. To reach this objective, we are heavily investing in RES and hydrogen projects incl. the installation of large-scale electrolyzers at our existing energy production sites, but also engaging in long-term contracts for the import of hydrogen and hydrogen-carriers, as well as in the conversion of our existing gas storages. To this end, we are collaborating with other industry players and utilities in various consortia. We would like to share some of the practical considerations of our business colleagues working on those activities, and hear your view on outstanding discussions on the RED as well as the gas and hydrogen framework.

I am looking forward to hearing from you if a meeting on 21 October, possibly in the afternoon, would be feasible from your side.

With kind regards
