Subject: Interservice Steering Group for the initiative on the Right to Repair
(PLAN/2021/11514)

The Commission work programme 2022 under the European Green Deal includes an initiative for the Circular Economy on the Right to Repair, planned for the 3rd quarter of next year.

DG JUST has already started the preparatory work together with some of your services, and an Interservice Steering Group, chaired by the Secretariat-General, will now follow up the further development of this initiative, in line with the Commission working methods.

I would like to invite your services to confirm the officials with a mandate to participate on your behalf as members of this group. I would be grateful if you could provide this information by 5 November 2021 to [REDACTED]

The group will be convened shortly after to validate the call for evidence and public consultation. The invitation and documents will be sent directly to your nominated representatives.
