Subject: Notification of NB 2163

[REDACTED]

Notification of NB 2163 under PPE Regulation (EU) 2016/425 has expired last 30.05.21.

The Turkish authority has not yet sent the update of the notification of NB 2163 and has not informed either about his intentions of not notifying this body again.

The certificates issued by the notified body remain valid unless there are strong concerns about them.

According to Article 30(2) of the PPE Regulation: "In the event of restriction, suspension or withdrawal of notification, or where the notified body has ceased its activity, the notifying Member State shall take appropriate steps to ensure that the files of that body are either processed by another notified body or kept available for the responsible notifying and market surveillance authorities at their request."

We are currently evaluating the last documentation of NB 2163 provided by the Turkish authority in May.

We will come back to you once we have more information on the subject.

Could you please distribute this info in the PPE AdCo group?

Best Regards,

[REDACTED]
