Subject: Platform Worker - Move EU Position
Attachments: Improving ride-hailing drivers' conditions without putting at risk jobs and innovative industries in the EU.pdf

Dear Mr Moutalier,
Dear Mr Canton,
Dear Ms Chirico,

Following meetings earlier this year, I am attaching Move EU's proposal to improve working conditions of ride-hailing drivers, to decrease the risk of reclassification and to offer an alternative to the rebuttable presumption of employment which is considered by the European Commission.

Move EU is convinced that the European Commission should seek alternative options to improving working conditions, without compromising earning opportunities and innovations in the field of digital mobility solutions.

Kind regards

Subject: Meeting invitation: Platform Worker

Dear Mr Canton,

I am contacting you in the context of my work for Move EU and hope you are well.

Following our meeting earlier this year, we would welcome the chance to exchange with you again on the matter of platform worker, ahead of the Commission adoption of a measure to improve working conditions of people working in the platform economy in December.

Please let me know when you would be available for a meeting and whether you desire additional information.

Kind regards
