- Covid increased demand for Wolt's services. Wolt offers instant delivery marketplace services at a local level.

They are interested in the DSA, GPSR and platform workers workstream.

- Wolt works with both self-employed and employees. Flexibility is valued high among their workers. Instead of the rebuttable presumption, they would like to see improved protection measures for self-employed (eg. collective bargaining). Additionally, they propose clear criteria for the existence of an employment relationship (eg. flexibility, possibility for multihoming etc).

- Wolt considers to be captured by DAC7 but not by P2R.
