Dear Vice-President Timmermans,
Dear Commissioner Simson,
Dear Commissioner Breton,

I am contacting you on behalf of a group of 8 environmental groups, who are following the EU-level discussions on hydrogen closely.

In attachment, you can find a joint letter, which outlines our views on hydrogen. For us, the EU must focus on (lead markets for) sustainably produced, renewable hydrogen.

We hope to see the broad principles outlined in this letter to be reflected in several upcoming ‘European Green Deal’ initiatives of the European Commission (e.g. smart sector integration strategy, the Clean Hydrogen Alliance and hydrogen strategy, industrial strategy for a clean and circular economy, sustainable alternative fuels, etc.).

Members of your respective cabinets as well the senior leadership of the relevant Commission DGs ENERGY, CLIMA, GROW and ENVI are CC’ed in this email.

Should you have any questions or wish to discuss this letter, do not hesitate to be in touch.

Yours sincerely,
