Subject: INVITATION - EU Internet Forum Senior Officials Meeting 16 November

Dear [REDACTED]

The EU Internet Forum (EUIF) was created in 2015, bringing together tech companies, civil society, governments, academia and law enforcement to counter terrorist and violent extremist content online. Since then, the Forum has been extended to cover the topic of online child sexual abuse. Countering the developing threat landscape and responding efficiently to the dynamic approaches of bad actors makes cooperation and exchange between all stakeholders indispensable.

The goal of the EU Internet Forum is to agree on common approaches to detect and address harmful material online to keep our societies safe. In this context, we greatly appreciate TikTok's interest in joining the EU Internet Forum. In view of becoming a member, we welcome that TikTok agreed to present its activities to the members of the Forum and we warmly invite you to do so at the next EUIF Senior Officials meeting, taking place virtually on **16 November 2021 from 16:30 -18:00 CET**.

We would appreciate hearing about TikTok's efforts on content moderation techniques to prevent and detect harmful material on your platform, transparency reporting, special measures to protect minors, cooperation with law enforcement and engagement in international initiatives and organisations dealing with violent extremist and terrorist content online and/or child sexual abuse online.

We kindly ask you to register to the event by clicking on this link to our [registrations platform](#). Here is also a [link](#) to the website.

Should you have any questions, please feel free to reach out to us.

We are looking forward to meeting you virtually.

Kind regards,

The EU Internet Forum Team
