Subject: SolarPower Europe - reaction to the planned Communication on "A Joint European Action for more affordable, secure and sustainable energy"

Dear President Von der Leyen,
Dear Executive Vice-President Timmermans,
Dear Commissioner Simson,
Dear Commissioner Breton,

We welcome that the European Commission is taking action to preserve the European Green Deal and a consolidated European framework for investors, acknowledging at the same time the difficulties Member States are facing due to the energy price hikes.
The planned communication on „A Joint European Action for more affordable, secure and sustainable energy“ is needed to deliver this balance. However, some elements of the Communication should be carefully re-evaluated.

Please find attached our letter highlighting some elements which could hamper the further growth of renewables in Europe.

Should you have any questions please do not hesitate to contact me.

Kind regards,

Walburga Hemetsberger
Chief Executive Officer
