Then I would propose 9 am in the morning and could send you the teams invitation.

Should I add someone else or only your mail [Redacted]@wearethorn.org?

Best wishes,
Thanks for getting back to me so quickly. The morning of the 28th would be perfect. My morning is wide open so whatever time works for the team I can be flexible.

Subject: Meeting on the fight against CSAM

Dear Mrs. Sioli, <person>

I am <person> from Thorn. We had the pleasure to have talking about the interactions between
Artificial Intelligence and the fight against Child Sexual Abuse Materials last September, based on the initial recommendation of Thorn.

Thorn is a US-based non-profit organization that builds technological solutions and infrastructure to combat child sexual abuse online. We are closely following the discussions in the EU regarding the Artificial Intelligence Act, and we welcome the risk-based approach followed by the Commission. Regulation artificial intelligence will interact directly and indirectly with the ongoing fight against the dissemination of child sexual abuse material online. As the Commission is also preparing a strategy in this field, we would kindly like to have a follow-up meeting with you too.

As the discussion around the Artificial Intelligence Act is developing at a fast pace and ahead of the publication of the long-term strategy, we would love to hear from you and share our experience and expertise. I will be in Brussels at the end of March and beginning of April. Do you have some availability on March 28 or 29?

Thank you so much for your time.

Best,
