Brussels, 06 April 2022

MEETING DOCUMENT

From: European Commission Services
To: Delegations
Subject: Digital Services Act: Compromise suggestions prepared by the Commission services for the two co-legislators on article 24b
### Article 24b

**Additional obligations for platforms primarily used for the dissemination of user-generated pornographic content**

Where an online platform is primarily used for the dissemination of user-generated pornographic content, the platform shall take the necessary technical and organisational measures to ensure:

1. that users who disseminate content have verified themselves through a double opt-in e-mail and cell phone registration;
2. professional human content moderation, trained to identify image-based sexual abuse, including content having a high probability of being illegal;
3. the accessibility of a qualified notification procedure in the form that, additionally to the mechanism referred to in Article 26, providers of very large online platforms, in particular those primarily used for the dissemination of pornographic content, should also diligently meet all their obligations under this Regulation in respect of online content constituting cyber violence against women, as defined in Directive [.../.....] of the European Parliament and of the Council on combating violence against women and domestic violence, including ensuring that victims can effectively exercise their rights in relation to content representing non-consensual
14, individuals may notify the platform with the claim that image material depicting them or purporting to be depicting them is being disseminated without their consent and supply the platform with prima facie evidence of their physical identity; content notified through this procedure is to be suspended without undue delay.

sharing of intimate or manipulated material in a timely manner.
