---

Dear SAB Members, Observers and Alternates,

We would like to inform you that we have published the details of the implementation in the aviation sector of the restrictive measures imposed by the European Union against Russia following its military invasion of Ukraine.

The published Notice to Stakeholders has the intent to inform all interested parties in the aviation sector of

the actions taken by EASA to implement these restrictive measures with respect to EASA applicants and certificate holders. The notice also provides further information on the impact of those restrictive measures on some of the rights and obligations of the aviation undertakings under the aviation safety rules falling under the scope Regulation (EU) 2018/1139. This is complemented by a detailed list of EASA certificates and approvals which have been suspended in application of those restrictive measures.

You can find the related links below:
