

	Result (by level)
Impact (Overall objective)	To contribute to fostering more inclusive social and economic environment and stability in the region
Specific objective(s)	Stability and recovery of local communities, including migrant populations on the move and returnees, is progressively enhanced, most notably in conflict or post-conflict areas
Immediate outcomes	1. Professional competences of staff working in the field of health, education and WASH increased [EU TF IO.3]
	2. Equipment of the supported health and WASH institutions enhanced [EU TF IO.4]
	3. General health and education infrastructure enhanced [EU TF IO.5]
	4. Awareness of general public regarding inclusive access to basic services (health, WASH, education) [EU TF IO.8]

## Outputs

1.1. Trainings on health, education, energy and WASH conducted, including managerial skills, conflict sensitivity, do-no-harm principle and crisis management, inclusive access to basic services, communications between local authorities and communities

2.1. Equipment and supplies delivered to health, WASH facilities

3.1 Infrastructure works completed (Health and Education)

4.1. Awareness campaigns of general public regarding inclusive access to basic services

IP Indicator/ common output indicators
Perception of national and international experts
Local Authorities promoting dialogue between population groups, especially on public policy issues that address common problems (e.g. natural resource management)
% of service providers reporting an increasing quality of basic services delivered
Number of people (possibly disaggregated by sex, age, status) having access to improved service facilities. <b>EUTF common indicator 2.9.</b>
Number of local authorities reporting service provision capacity of target facilities has increased
Number of people (possibly disaggregated by sex, age, status) having access to improved service facilities. <b>EUTF common indicator 2.9.</b>
Number of local authorities reporting service provision capacity of target facilities has increased
% of service users reporting an increasing quality of basic services delivered/inclusive access

Number of staff from public, CSOs and private sector service providers trained - by AICS and INGOs. <b>EUTF common indicator 2.8.</b>
Number of training workshops organized by AICS for strengthening Municipalities' service delivery capacity (managerial skills, conflict sensitivity, do-no-harm principle and crisis management, inclusive access to basic services, communications between local authorities and communities)
Number of training courses delivered - by INGOs - in each Municipality for basic service providers (including public sector, CSOs and private sector actors' staff, as appropriate)
Number of health facilities/service providers receiving enhanced equipment and supplies
Number of WASH facilities/service providers receiving enhanced equipment and supplies
Number of health facilities rehabilitated and undergone maintenance works <b>EUTF common indicator 2.1. bis</b>
Number of education facilities rehabilitated and undergone maintenance works <b>EUTF common indicator 2.1. bis</b>
Number of municipalities where public awareness activities/campaign(s) to promote an inclusive access to basic services are delivered (by INGOs)
Number of social media content (posts, campaigns, infographics and visual content) on inclusive access to basic service facilities produced and disseminated (AICS + UNDP + UNICEF)
Number of awareness raising products (including audio-visuals and human interest stories) to sensitise on inclusive access to basic service facilities
