

This EXCEL-file has 4 more tabs that include the indicators you chose for your EU TF NOA project and included in your log frame. Please complete and update each tab with your current data from your project as available. Each sheet covers the fo lowing:

<b>1 Bas Info</b>	Gen all info mat on the project. The cu ent date epo t, and contact data is fo p ma y p object contacts
<b>2 ImmediateOutcomes</b>	The ind catos chosen fo you p oject's immediate Outcomes (IO)
<b>3 Output</b>	The output s chosen fo your project's outputs (O) (including activities and products)
<b>4 EUTF_COI</b>	The co s selected fo you project on the EU TF Common Output Indicators. To avo double entry, these ind catos do not appear in the other two sheets.

For ease of data-entry, each tab is coloured coded (background-colours) to indicate protected fields and/or the data-type to be reported to DG NEAR.

The colour-codes are as follow:

Grey-shaded	These cells are pre-filled w th the "technic" info mat on, i.e. ow & column header, o info mat taken from your log frame. These fields are protected and cannot be altered (they are opt ons to protect ng, cf. below).
Yellow	Cell is a free text entry, e. non-standardised text needed. They appear in sheet 1 Bas. Info.
Green	Cell has a dropdown-list of pred def terms that appear when you enter /click on the cell. Please choose the opt on that best fits your project (i.e., the majority of activities or outputs planned).
Light-blue	Cell is a date entry. Please enter in the correct YYYY-mm-dd format.

In the first wave of data collection, DG NEAR would like to verify some of the information on your project, and in particular to check - and if needed correct or supplement - relevant but missing basic information on your project and key data, especia by baseline and target values. This is in addition to collecting the regular update of indicator-values (status of each output).

It is important to note that Tabs 2 to 4 are structured the same way. Baseline (value and date), Target (value and date), and the Total Count in the reporting period.

It is the responsibility of each project to update the "current" value for your indicator with each new report.

The baseline value should remain unchanged in the future. You can adjust your targets in consultation with DG NEAR should something change with your project.

Where possible i.e. based on the information in column [ACCORDING TO approved LF] the columns [value] have been prefilled with corresponding numbers (please check and correct if deemed necessary in column [VALUE]).

Outputs (preset according to LF-i.e. latest version of the logframe contracted with DG NEAR)							Technical details on the indicator											Additional breakdowns										
References to LF or DoA		Project Indicator			Baseline (Please insert value & date) Reqd. for only I, T, L, F, b, m and mod changes apply		Target (Please insert value & date) Reqd. for only I, T, L, F, b, m and mod changes apply		Total count in reporting period		UNIT			TYPE			Gender			Age group (for Operational Assistance only)								
		ACCORDING TO APPROVED LF		value	date	ACCORDING TO APPROVED LF		value	date	cu ently	ad just to?		cu ently	ad just to?		Gender counted	female	male	non-binary	no debt is counted	Age counted	0 to 6 (incl.)	6 to 18 (incl.)	18 and older	no debt is counted			

This is followed by section [Details on the indicator] where you are asked to verify the types and units of measurements (dropdownlists in green cells to provide predefined items but you can also overwritte these).

For the [Additional breakdowns] section you can also designate the type of beneficiary or target group for projects categorized as Operational Assistance or Capacit Building (see definitions below).

The [Outputs] and [EUTF Macro] tabs provide further detail on these two types of output indicators.

[Details on the indicator]  
For this section please check the (measurement) unit of your indicator included (for example: % etc. - for more details pls. see below). If the unit listed is not correct please choose a more appropriate unit from the drop-down list (green background). Please do the same for the (measurement) type (also listed below).

#### For example (regarding TYPE)

- You p oject has to be mp ov er access to healthca e.
- St uat on analysis has found that only 15% (e. 300 thuds) of populat on in the eg (on about 2 m in total) have access to potable water at basel ne.
- Ta get is to mp ove the s by p ovd ng potable water to add oinal 100 thuds people (calculated n absolute te ms).
- Th target be reached via the as:

  - an exch of 30.3% (150 thuds to the es about 300 thuds. se d), o
  - a plus of 10% pop ulat ns, n total populat on se ved, o
  - n absolute nc base by 100 thuds.

It is important that you report how you calculated your indicator to prevent misinterpretation and inaccurate calculations especially because outputs will be aggregated with other projects. This is because other projects implementing similar activities in different regions might define their baselines and targets differently; in these cases we will find common denominators first and only then aggregate across projects to ensure the numbers accurately reflect the outputs of all addressing similar issues.

#### For UNITS

t equally import ant that you epo t the unit of measurement to your ind cat. For example, you might be helping build suds. If your epo t 1,000, we need to know that's s 1,000 met es, km, m les, etc. that you are using to measure the length. O, for example, you need to epo t the unit in which you are epo ting n target (n the number of ind cat oants? The dosage of ton in g e intensity n terms of t me? It's import ant that you clarify this so that we do not have many amng alte the units (fo example, # of t an ngs epo ted by one p oject and # of p ojects epo ted by another ).

Items fo UNIT list (the list has been enhanced by some new items!)	Items fo TYPE a e
%	length fo t the UNIT apportioned (e.g., 100%, only pos t ve values)
#	length fo t the UNIT apportioned (e.g., 10, only pos t ve values)
EUR	length fo t the EUR apportioned (e.g., 100%, pos t ve and negat ve values)
# Persons	number of persons (e.g., benefit c. ns, pop ult c. ns, pop ult c. p. counts, head of family, etc.)
Family/HH (4 P)	If an benefit c. es not ngle pe le counts are counted but fam es/households, noted, please select a p. ape ave household size (4, 5 o 6 people) as a conv on factor, based on Family/HH (5 P)
Family/HH (5 P)	select a p. ape ave household size (4, 5 o 6 people) as a conv on factor, based on Family/HH (5 P)
Date	date fo t the UNIT, need ng to be specific (e.g., 01/01/2016, or even 01/01/2016)
km	counting length/distance
miles	counting length/distance
naut c miles	counting length/distance at sea (e.g., m. a. t me to be)
metres	counting length/distance
m²	counting surface area
V	counting quantity (volume)
kg	counting weight
metres	counting height
metres	counting height
metres	counting height
hours (60 m)	counting time (metres)
hours (60 s)	counting time (metres)
hours (45 m)	counting time (metres)

Please note in the UNIT-column, it is possible to enter some othe units that are not included in the drop down menu. If you need to use such othe units, please p ove a sh o t explain on wh ch you epo t why this was necessa and a desc pt on of the UNIT. Th s w ll help ensu e that the data is p rocessed correctly!

Definitions of Project Service Types:  
In the Logframe alignment process, the following Service Types already have been attributed to each indicator at Immediate Outcome and Output level

<b>Capacity Building</b>	Supp oject s allow n and wo shops or ded p. ma ly to instut ods and to c. staf. publ c staff (e.g., government offic e, busi ness sect or, heathca e, wo k, etc.) and c. v lso c. o. community by-based act s (includ ng volunteer staf at the eg, coal, natl and local levels to mp ove the abilit y, sk and knowledge of how to develop app ote v amg at on-related f amewo ks, leg slat on, pol c es, and p. act ces as well as how to fulf ll the ole(s) n suppo t to get populat ns, includ ng g ants, vulne able g ups, and host commun e.
<b>Individual &amp; household support (Operational Assistance)</b>	All types of supp ojects to get pop ult to exalte vulne able ind duals and households. For example, bas c se v. educat on, the se, food secu rity, etc. But it can also include supp ojects to ind duals and households in host populat ns o less tang ble but equally import ant supp ojects to help ind duals and households to withstand crises and es t ad cal sat on (though t a n g, menta sh p, etc.). Th s p. at on also includes supp ojects to c. st. ance dev to g oups in wh ch they have commun e, such as youth g oups, VSLAs o o. o. c. o. community g oups, etc.
<b>Advocacy/Awareness rais ng</b>	Supp oject s g ants, govern ments, and host populat ns to inc e knowle dge and unde standing of mg at on-related issues. fo example, messag ng on the ava lab. ity of and pathways to access ng se v. c. g. ants and ent elements, government and commun e esp ons. b. t. es and publ c and ind duals o

Ce fichier EXCEL contient 4 autres onglets qui incluent les indicateurs que vous avez choisis pour votre projet FF UE Adn et inclus dans votre cadre logique. Veuillez compléter et mettre à jour chaque onglet avec les données actuelles de votre projet, si disponibles. Chaque feuille couvre les éléments suivants

1_ Info de Base	Info de base telle que le nom du p o et, le aperteur de données actuel et les co donnees des p nc paux contacts du p ojet
2_ Indicateurs	Indicateurs sur les objectifs et les résultats du p ojet
3_ Outputs	Ind catos t chosen fo. le Outputt de you. p object x et es
4_EUTP_CDI	Les nd catue s'select onnes pou vot e p ojet à pa t des indicatours d'Outputt commun du FF UE. Pou éve te le doubles s a s es, ces nd cateu s n'appa a ssent pas dans les aut es feu les.

Pour faciliter la saisie des données, chaque onglet a un code couleur (couleurs d'arrière-plan) pour indiquer quelles sont les champs protégés et/ou le type de données à signaler à la DG NEAR.

Les codes couleurs sont les suivants :

Gris	Ces les sont prérempli es avec des rifo mat ons techniqu es , telles que des en-têtes de lignes et de colonnes, ou des rifo mat ons ext a de vot e et cad e logue. Ces champs sont protégés et ne peuvent pas être modifiés.
Jaune	Les cellules Jaunes sont destinées à la saisie de texte libre, c'est-à-d e et textes non mal se s nécessaire s. Il appa a ssent dans le feu ille 1_Bas c. info.
Vert	Les cellules Vertes ont une lise déroulante d'éléments prédefinis qui appa a ssent le squeu vous ent e / cl quez su la cellule. Veu ill chos i opt on qui corespond le m eux à vot e et p ojet (c'est-à-d e la ma o. t des act v tés ou des outputs p évus).
Rouge	Les cellules en Rouge Clair sont pour les noms / comptes / valuers / [c'est-à-d e des valeurs numériques multiples]. Veu ill NE PAS inclure de périodes de formatage ni de modificateurs (par exemple, km, / v es, etc.). Pa exemple, 2 en 050-0500,5
Bleu	Pour centages, veu ill chos i et des nombr es décs max ne dépassant pas t o ch ff es, pa exemple 0,356 pour 35,6% (ou 0,356 selon les pa améts de vot e et systèmes de numér otat on).

Lors de la première vague de collecte de données, la DG NEAR souhaitera vérifier certaines des informations relatives à votre projet, et notamment - si et nécessaire re, corriger ou compléter - des informations de base pertinentes mais manquantes concernant les informations et les données clés de votre projet, en particulier les données de base et les valeurs cibles. Cela ajoute à la collecte de la mise à jour régulière des valeurs d'indicateur (statut de chaque output).

Il est important de noter que les onglets 2 à 4 sont situés ds de la même maie :

Donnée de base (valeur et date), Cible (valeur et date) et le compte dans la période de reporting, Ic, la tâche p nc pales consiste à mette à jour la valeur actuelle de vot e et nd cateu à chaque nouveau appo t.

La valeur de la donnée de base doit être renouvelée dans le futu. Vous pouvez ajuster vos c bles en consultant avec la DG NEAR, s quelque chose change dans vot e p ojet.

Dans la mesu du p oss p ble, c'est-à-d e que la base des rifo mat ons SELON CL APPROUVÉ, les colonnes [valeurs] ont été p empés des ch ff es (veu ill lez l'vous-pla t co comme nécessaire e dans la colonne [valeur] ).

Pou aucunes remarques concernant un nd cateu s p le que, on a évoqué la dernière de colonne t de t lez l'vous-pla t co comme nécessaire e dans la dernie de colonne [valeur] ). Pour des remarques plus générales, veu ill lez le note s l'vous-pla t à l'onglet 1\_Basic\_Info (rifo mat ons de base).
