-Presentation of the Corporate sustainability due diligence Proposal, by [REDACTED]

-Questions and answers:

\* [REDACTED] (Agnico Eagle Finland OY): how to enhance supply chain in EU and at the same time implement due diligence in supply chains?

\* [REDACTED] (Euromines): How to ensure coherence between CSDD and other EU legislations like Batteries? In particular what is the link between CSDD and CRSD obligation (double materiality) and the EFRAG standards?

\* [REDACTED] (Austrian Mining and Steel association): welcomes defragmentation. DE legislation more adapted. How to implement due diligence obligations beyond Tier 1? Who will be liable, the company or director? How does the liability work beyond Tier 1?

[REDACTED], would you please register the report in Ares?
