Dear all,

This was an impressive first European Animation Convention in Barcelona which gathered representatives from the industry from across Europe, NSEW. Mainly producers and some broadcasters but film funds and EFADs were largely absent. The concept was squarely about the European dimension. The discussions aimed to build on the report by ALICE (Animation League for Increased Cooperation In Europe) financed by Interreg [https://projects2014-2020.interregeurope.eu/alice/](https://projects2014-2020.interregeurope.eu/alice/)
