Points which you might raise at the meeting:

**Consumer law enforcement Package**

- As consumers face increasing threats from digital markets and advertising, the Commission included in its Work Programme 2023 a revision of the Consumer Protection Cooperation (CPC) Regulation and the ADR/ODR legislation.

- The aim of this revision is to render public enforcement by MS authorities and the Commission more effective and deterrent, including by vesting direct enforcement powers in certain, clearly defined EU-wide cases directly in the Commission, and to offer consumers modern, efficient and user-friendly tools for obtaining redress where their rights have been breached, including in cross-border cases.

- While the exact date for adoption is not yet confirmed, we are working towards adoption still under the Spanish Presidency.

**Cookie pledge:**

- We have launched a new initiative to work together with stakeholders on voluntary solutions that could address consumer issues related to cookies and targeted advertising.

- The identified solutions will be part of a business pledge which will be voluntary and will not involve any changes to and should respect the existing laws.

- The first roundtable meeting with stakeholders took place on 28 April 2023 and stakeholders expressed interest to participate in the reflection and the work to identify the content of the pledge.

- As for next steps, 3 working groups have been created focusing on different issues. Meetings of the working groups should take place in June and September. A plenary roundtable meeting is foreseen for October. The aim is to define the content of the pledge by the end of 2023.
BACKGROUND
Meeting with

13 June 2023 15:00 CAB room
