Dear Filip,
As you may know, A Low Carbon Liquid Fuels Strategy for the EU is a cornerstone of events worldwide. In the framework of their initiative “Energy 4 Mobility” https://automechanika.messefrankfurt.com/global/en/energy4mobility.html, they are holding a event on mobility and low-carbon fuels on March 3rd. As you can see from attached synopsis and list of speakers the event is high level and is focused on the EU regulatory environment. The broadcasting, moderating and technical online coverage will take place in the premises of the Landesvertretung Hessen in Brussels. We have recommend that they invite Ms. Valean for the opening speech. Our team is also on the speaker’s list.

Ms. Valean will receive an invitation from Messe Frankfurt shortly: we do hope she will be able to accept.
