| IE0000006 | Killyconny Bog (Cloughbally) SAC | 284/2018 | - Reclamation, including infilling.  
- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, gravel or other sediment.  
- All activities relating to turf cutting and/or stone extraction.  
- Cutting, uprooting or otherwise removing plants. [Comment is not required for harvesting of cultivated crops, or for grazing or mowing.]  
- Introduction, or re-introduction, of plants or animals not found in the area. [Comment is not required for the planting of crops on established reseeded grassland or cultivated land.]  
- Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.  
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Comment is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 50m from a river, stream, floodplain, wetland, lake, turflough or pond.]  
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Comment is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turflough or pond.]  
- Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.  
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Comment is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 50m from a river, stream, floodplain, wetland, lake, turflough or pond.]  
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Comment is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turflough or pond.]  
- Introduction, or re-introduction, of plants or animals not found in the area. [Comment is not required for the planting of crops on established reseeded grassland or cultivated land.]  
- Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.  
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Comment is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 50m from a river, stream, floodplain, wetland, lake, turflough or pond.]  
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Comment is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turflough or pond.]  
- Burnt, topping, clearing scrub or rough vegetation or reseeding. [Comment is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turflough or pond.]  
- Application of pesticides, including herbicides. [Comment is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turflough or pond.]  
- Significant changes in livestock density [including introduction of grazing], changes in livestock type or grazing season, other than on established reseeded grassland. [Comment is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]  
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.  
- Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.  
- Water abstraction, sinking of boreholes and wells.  
- Boring of trees or removing timber, including dead wood.  
- Planting of trees or multi-annual biomass crops.  
- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities. |

IE0000030
Ballybunion SAC
47/2021
• Reclamation, including infilling.
• Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]  
• Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
• Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.]
• Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.]
• Application of lime. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]  
• Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Burning, topping, clearing scrub or rough vegetation or reseeding. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Storage, burial, disposal or recovery of any materials. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Changing of agricultural use from hay meadow to any other use.
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
• Water abstraction, sinking of boreholes and wells.
• Planting of trees or multi-annual bioenergy crops.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
• Application of herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.]
• Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.]
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Storage, burial, disposal or recovery of any materials. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Storage, burial, disposal or recovery of any materials. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
• Water abstraction, sinking of boreholes and wells.
• Planting of trees or multi-annual bioenergy crops.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
• Reclamation, including infilling.
• Blasting, digging, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Construction or alteration of fields, roads, bridges, culverts or access routes.
• Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• Reclamation, including infilling.
• Stocking or re-stocking with fish.
• Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, sapping or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• Construction or alteration of trails, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
• Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turlough or pond.]
• Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
• Storage, burial, disposal or recovery of any materials. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Grazing of livestock between 1st April and 31st October on traditional winterages.
• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
• Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turlough or pond.]
• Grazing of livestock between 1st April and 31st October on traditional winterages.
• Construction or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
• Modifying of ditches and/or their entrances.
• Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turlough or pond.]
• Grazing of livestock between 1st April and 31st October on traditional winterages.
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. (Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.)
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Drainage works including digging, deepening, clearing or blocking of a drain, watercourse or waterbody.
• Water abstraction, sinking of boreholes and wells.
• Planting of trees or multi-annual bioenergy crops.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

See "SACs with NA details" sheet
Reclamation, including infilling.

Stocking or re-stocking with fish.

Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.

Cutting, uprooting or otherwise removing plants. (Consent is not required for harvesting of cultivated crops, or for grazing or mowing.)

Introduction, or re-introduction, of plants or animals not found in the area. (Consent is not required for the planting of crops on established reseeded grassland or cultivated land.)

Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.

Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. (Consent is not required for normal maintenance.)

Cutting, ploughing, harrowing or otherwise disturbing soil or substrate. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 50m from a river, stream, floodplain, wetland, lake, turflough or pond.)

Applying inorganic or organic fertiliser, including slurry and farmyard manure. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.)

Application of pesticides, including herbicides. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.)

Supplementary feeding of livestock. (Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.)

Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. (Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.)

Works, or alterations to, the banks, bed or flow of a drainage, watercourse or waterbody.

Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.

Entry of livestock or machinery into stretches of river containing, or upstream from, freshwater pearl mussel.

Water abstraction, sinking of boreholes and wells.

Hilling of trees or removing timber, including deadwood.

Planting of trees or multi-annual bioenergy crops.

Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

541/2018

See “SACs with NA details” sheet

• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

• Planting of trees or multi-annual bioenergy crops.

• Water abstraction, sinking of boreholes and wells.

• Application of pesticides, including herbicides. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.)

• Supplementary feeding of livestock. (Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.)

• Application of lime. (Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.)

• Application of inorganic or organic fertiliser, including slurry and farmyard manure. • Undertaking scientific research involving the collection and removal of biological material.
• Introduction, or re-introduction, of plants or animals not found in the area. (Consent is not required for the planting of crops on established reseeded grassland or cultivated land.)
• Undertaking active acoustic surveys in the marine environment.
• Reclamation, including infilling.
• Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. (Consent is not required for harvesting of cultivated crops, or for grazing or mowing.)
• Introduction, or re-introduction, of plants or animals not found in the area. (Consent is not required for the planting of crops on established reseeded grassland or cultivated land.)
• Undertaking scientific research involving the collection and removal of biological material.
• Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. (Consent is not required for normal maintenance.)
• Felling of trees or removing timber, including dead wood.
• Planting of trees or multi-annual bioenergy crops.
• Storage, burial, disposal or recovery of any materials. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough, or pond.)
• Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. (Consent is not required for harvesting of cultivated crops, or for grazing or mowing.)
• Undertaking active acoustic surveys in the marine environment.
• Reclamation, including infilling.
• Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. (Consent is not required for harvesting of cultivated crops, or for grazing or mowing.)
Rogerstown Estuary SAC

North Dublin Bay SAC

- Reclamation, including infilling.
- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
- Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for planting of crops on established reseeded grassland or cultivated land.]
- Undertaking scientific research involving the collection and removal of biological material.
- Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 50m from a river, stream, floodplain, wetland, lake, turough or pond.]
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 30m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Applying time. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Storage, burial, disposal or recovery of any materials. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Burning, topping, clearing scrub or rough vegetation or reseeding. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
- Water abstraction, sinking of boreholes and wells.
- Felling of trees or removing timber, including dead wood.
- Planting of trees or multi-annual bioenergy crops.
- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
- Using or permitting the use of land for car parking where it may damage the vegetation, soil or substrate.
- Harvesting marine invertebrate species in intertidal areas.
- Dining mechanically propelled vehicles in intertidal areas, except over prescribed access routes.

Begina Estuary SAC

- Reclamation, including infilling.
- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
- Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
- Undertaking scientific research involving the collection and removal of biological material.
- Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 50m from a river, stream, floodplain, wetland, lake, turough or pond.]
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Applying time. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Storage, burial, disposal or recovery of any materials. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]
- Burning, topping, clearing scrub or rough vegetation or reseeding. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turough or pond.]

- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Reclamation, including infilling.
• Reclamation, including infilling.
• Blocking or re-stocking with fish.
• Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. [ Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Introduction, or re-introduction, of plants or animals not found in the area. [ Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• Undertaking scientific research involving the collection and removal of biological material.
• Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [ Consent is not required for normal maintenance.]
• Digging, ploughing, harrowing or otherwise disturbing soil or subsoil. [ Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Application of pesticides, including herbicides. [ Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Supplementary feeding of livestock. [ Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [ Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]

Galway Bay Complex SAC

• Grazing of livestock between 1st April and 31st October on traditional winterages.
• Changing of agricultural use from hay meadow to any other use.
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
• Water abstraction, sinking of boreholes and wells.
• Felling of trees or removing timber, including dead wood.
• Planting of trees or multi-annual bioenergy crops.
• Developing or consenting to the development or operation of commercial recreations/visitor facilities or organised recreational activities.
• Undertaking active acoustic surveys in the marine environment.
• Harvesting marine invertebrate species in intertidal areas.
• Driving mechanically propelled vehicles in intertidal areas, except over prescribed access routes.

Inishbofin and Inishshark SAC

• Digging, ploughing, harrowing or otherwise disturbing soil or subsoil. [ Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Cutting, uprooting or otherwise removing plants. [ Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Introduction, or re-introduction, of plants or animals not found in the area. [ Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• All activities relating to turf cutting and/or peat extraction. [ Consent is not required to continue domestic turf cutting from existing turf banks.]
• Undertaking scientific research involving the collection and removal of biological material.
• Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [ Consent is not required for normal maintenance.]
• Digging, ploughing, harrowing or otherwise disturbing soil or subsoil. [ Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Application of pesticides, including herbicides. [ Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Supplementary feeding of livestock. [ Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [ Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]

• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

• Water abstraction, sinking of boreholes and wells.

• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]

• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.

• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.

• Felling of trees or removing timber, including dead wood.

• Planting of trees or multi-annual bioenergy crops.

• Developing or consenting to the development or operation of commercial/recreational/visitor facilities or organised recreational activities.

• Storage, burial, disposal or recovery of any materials. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]

• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]

• All activities relating to turf cutting and/or peat extraction.

• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.

• Water abstraction, sinking of boreholes and wells.

• Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 50m from a river, stream, floodplain, wetland, lake, turlough or pond.]

• Applying lime. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]

• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.

### IE0000713 Ballyman Glen SAC 02/2019

- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
- Planting of trees or multi-annual bioenergy crops.
- Reclamation, including infilling.
- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
- Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
- Construction or alteration of trails, paths, roads, bridges, culverts or access routes.
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Application of lime. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
- All activities relating to turf cutting and/or peat extraction.
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
- All activities relating to turf cutting and/or peat extraction.
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.

Blackstairs Mountains SAC

- Reclamation, including infilling.
- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Cutting, uprooting or otherwise removing plants. [This is not required for harvesting of cultivated crops, or for grazing or mowing.]
- Introduction, or re-introduction, of plants or animals not found in the area. [This is not required for the planting of crops on established reseeded grassland or cultivated land.]
- All activities relating to turf cutting and/or pasturage. [This is not required to continue domestic turf cutting from existing turf banks.]
- Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [This is not required for normal maintenance.]
- Digging, ploughing, harrowing or otherwise disturbing soil or subsoil. [This is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turough or pond.]
- Storage, burial, disposal or recovery of any materials. [This is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turough or pond.]
- Application of pesticides, including herbicides. [This is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turough or pond.]
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [This is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
- Felling of trees or removing timbers, including dead wood.
- Planting of trees or multi-annual bioenergy crops.
- Developing or consenting to the development or operation of commercial recreation/visitor facilities or organised recreational activities.

Slaney River Valley SAC

See "SACs with NA details" sheet
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

• Planting of trees or multi-annual bioenergy crops.

• Water abstraction, sinking of boreholes and wells.

• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.

• Cutting, uprooting or otherwise removing plants.

• Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]

• Applying lime. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]

• Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]

• Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]

• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]

• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]

• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]

• Changing of agricultural use from hay meadow to any other use.

• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.

• Planting of trees or multi-annual bioenergy crops.

• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turlough or pond.]
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Burning, topping, clearing scrub or rough vegetation or reseeding. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
- Changing of agricultural use from hay meadow to any other use.
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
- Water abstraction, sinking of boreholes and wells.
- Felling of trees or removing timber, including dead wood.
- Planting of trees or multi-annual bioenergy crops.
- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
- Using or permitting the use of land for car parking where it may damage the vegetation, soil or substrate.

- Application of lime. (Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.)
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.)
**Maumturk Mountains SAC** 431/2021

- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
- Planting of trees or multi-annual bioenergy crops.
- Water abstraction, sinking of boreholes and wells.
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing.
- Digging, ploughing, borrowing or otherwise disturbing soil or substrate.
- All activities relating to turf-cutting and/or post-extraction (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Applying inorganic or organic fertiliser, including slurry and farmyard manure (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Burning, topping, clearing scrub or rough vegetation or reseeding. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Application of pesticides, including herbicides. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing or not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Storage, burial, disposal or recovery of any material. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Stocks or re-stocking with fish.
- All activities relating to turf-cutting and/or post-extraction (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Applying inorganic or organic fertiliser, including slurry and farmyard manure (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing.
- All activities relating to turf-cutting and/or post-extraction (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Burning, topping, clearing scrub or rough vegetation or reseeding. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Application of pesticides, including herbicides. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing or not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Storage, burial, disposal or recovery of any material. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Stocks or re-stocking with fish.
- All activities relating to turf-cutting and/or post-extraction (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Applying inorganic or organic fertiliser, including slurry and farmyard manure (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing.
- All activities relating to turf-cutting and/or post-extraction (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Burning, topping, clearing scrub or rough vegetation or reseeding. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Application of pesticides, including herbicides. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing or not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.
- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Storage, burial, disposal or recovery of any material. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Stocks or re-stocking with fish.
- All activities relating to turf-cutting and/or post-extraction (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Applying inorganic or organic fertiliser, including slurry and farmyard manure (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing.
- All activities relating to turf-cutting and/or post-extraction (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Burning, topping, clearing scrub or rough vegetation or reseeding. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)
- Application of pesticides, including herbicides. (Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, lough or pond.)

- Reclamation, including infilling.
- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Cutting, uprooting or otherwise removing plants. (Consult is not required for harvesting of cultivated crops, or for grazing or mowing.)
- Introduction, or re-introduction, of plants or animals not found in the area. (Consult is not required for the planting of crops on established reseeded grassland or cultivated land.)
- Construction or alteration of tracts, paths, roads, bridges, culverts or access routes.
- Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. (Consult is not required for normal maintenance.)
- Digging, ploughing, harrowing or otherwise disturbing soil or substrate. (Consult is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turflugh or pond.)
- Application of pesticides, including herbicides. (Consult is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain or greater than 50m from a wetland, lake, turflugh or pond.)
- Supplementary feeding of livestock. (Consult is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain or greater than 50m from a wetland, lake, turflugh or pond.)
- Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. (Consult is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.)

- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
- Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
- Planting of trees or multi-annual bioenergy crops.
- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

• Applying organic or inorganic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
• Water abstraction, sinking of boreholes and wells.
• Hallowing of trees or removing timber, including deadwood.
• Planting of trees or multi-annual bioenergy crops.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
• Harvesting marine invertebrate species in intertidal areas.
• Driving mechanically propelled vehicles in intertidal areas, except over prescribed access routes.

|                          |            | - Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. |
|                          |            | - Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody. |
|                          |            | - Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody. |
|                          |            | - Placing of trees or multi-annual bioenergy crops.                        |
|                          |            | - Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities. |
- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
- Planting of trees or multi-annual bioenergy crops.
- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Burning, topping, clearing scrub or rough vegetation or reseeding. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turlough or pond.]
- Reclamation, including infilling.
- Blooming, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
- Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
- Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• Reclamation, including infilling.
• Stocking or re-stocking with fish.
• Blasting, dredging, digging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
• Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turlough or pond.]
• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turlough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
• Harvesting marine invertebrate species in intertidal areas.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
• Harvesting marine invertebrate species in intertidal areas.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.
IE0002214 Killeglan Grassland SAC

• Reclamation, including infilling.
• Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.
• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
• Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turflough or pond.]
• Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.]

208/2016

• Applying lime. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turflough or pond.]
• Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.]

[Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.]

• Applying lime. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, turflough or pond.]
• Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.]
• Cutting, uprooting or otherwise removing plants. [Consent is not required for harvesting of cultivated crops, or for grazing or mowing.]
• Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land.]
• Construction or alteration of tracks, paths, roads, bridges, culverts or access routes.
• Construction, removal or alteration of fences, stone walls, hedgerows, banks or any field boundary other than temporary electric fencing. [Consent is not required for normal maintenance.]
• Digging, ploughing, harrowing or otherwise disturbing soil or substrate. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, wetland, lake, turflough or pond.]
• Applying inorganic or organic fertiliser, including slurry and farmyard manure. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain, or greater than 50m from a wetland, lake, turflough or pond.]

• Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, turflough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Working on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.

• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
• Planting of trees or multi-annual bioenergy crops.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

• Good agricultural practice to prevent soil erosion, by minimising the disturbance of soil and substrate, and the transport of soil and sediments from and to the SAC. [Consent is not required for this activity provided it is greater than 20m from a river, stream, floodplain; or greater than 50m from a wetland, lake, turflough or pond.]
• Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
• Working on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.
• Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.
• Planting of trees or multi-annual bioenergy crops.
• Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

74/2018

- Developing or consenting to the development or operation of commercial recreational/visitor facilities or organised recreational activities.

- Drainage works including digging, deepening, widening or blocking a drain, watercourse or waterbody.

- Works on, or alterations to, the banks, bed or flow of a drain, watercourse or waterbody.

is applicable to a particular site.

- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]

- Application of pesticides, including herbicides. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]

- Burning, topping, clearing scrub or rough vegetation or reseeding. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]

- Storage, burial, disposal or recovery of any material. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]

- Reclamation, including infilling.

- Blasting, drilling, dredging or otherwise removing or disturbing fossils, rock, minerals, mud, sand, gravel or other sediment.

- Cutting, uprooting or otherwise removing plants. [Consent is not required for the planting of crops on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]

- Construction or alteration of cuttings, paths, or land for commercial recreational/visitor facilities or organised recreational activities.

- Construction, removal or alteration of fences, stone walls, hedges, banks or any field boundary other than temporary electric fencing.

- Introduction, or re-introduction, of plants or animals not found in the area. [Consent is not required for normal maintenance.]

- Burning, topping, clearing scrub or rough vegetation or reseeding. [Consent is not required for these activities on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]

- Supplementary feeding of livestock. [Consent is not required for this activity on established reseeded grassland or cultivated land provided it is greater than 20m from a river, stream or floodplain; or greater than 50m from a wetland, lake, lough or pond.]

Significant changes in livestock density (including introduction of grazing), changes in livestock type or grazing season, other than on established reseeded grassland. [Consent is not required for changes of less than 20% in livestock density unless notice has been given that a lower percentage is applicable to a particular site.]
