Subject: Report of meeting with AmCham-14 May 2014

On the 14th of May 2014 I met with the AmCham EU Trade and External Affairs Committee (a table of participants is contained in this email), at their request to provide a short presentation about the state of play of the negotiations for the EU-China investment agreement. My presentation covered the process that got us to the negotiation of the investment agreement (Union competence for investment under the Lisbon Treaty, impact assessment, authorisation by the Council to start negotiations and formal launch of the negotiations), as well as the current stage of discussions with the Chinese, i.e. third round to take place during the week of 16/6 in Beijing. I clarified that we are still at a quite early stage of the negotiations [

]

AmCham stressed the importance of these negotiations to address issues of specific importance for the industry: [

]

I reassured them that we are aware of the problems the EU industry faces in China and welcomed any additional feedback in this respect.
