Minutes of the meeting:

Cultural Survival reported on the situation of indigenous people, who often find themselves in areas where mining projects are developed and called for their rights and concerns to be addressed. In that regard, participants raised concerns on the trilogue discussions on “Corporate Sustainability Due Diligence Law” and the need to maintain Point 20 from subheading 1 of the Annex and the reference to UNDRIP from subheading 2 of the Annex on Indigenous rights. Participants also raise expectations that upcoming trade agreements, raw materials club and EU-backed projects would include a reference to key instruments of UN Declaration on the Rights of Indigenous Peoples, ILO 169 and Free, Prior and Informed Consent.

Topics: Indigenous rights, critical raw materials.
