Dear Commissioner,

On behalf of the Primary Food Processors of the EU (PFP), I would like to register our disappointment that our association has been overlooked by the European Commission as a partner organisation for the Strategic Dialogue on agriculture.

Primary food processing is a vital link in the food chain, delivering efficiently produced, high-quality, safe primary food for our customers and the consumer. We are the link between farmers on the one side, and secondary processors and retailers on the other.

You will find our complete letter in attachment.

We sincerely hope you will reconsider.

We remain at your disposal, as always.

Yours Sincerely,

Avenue de Tervuren, 168
B-1150 Brussels
