Presentation of the draft guidance on the reporting of the derogation from GAEC 7 and/or 8 in 2023 in the APR

CAP GREX, 27.11.2023
Length and format of the derogation from GAEC standards in 2023

No changes to the APR template

- Assessment of the effect of the application of the derogation(s) on **global food security**, including in particular a description of the additional production, the number of farmers and their areas of arable land that applied the derogation(s) from GAEC 7 and/or GAEC 8.

- When available, **quantitative information on the area of crops** cultivated or harvested on the land lying fallow under the GAEC 8 derogation. The number of additional hectares used for the production of food crops under the derogation from GAEC 7.

- Assessment of the effect of the application of the derogation(s) on the **preservation of the environment and the fight against climate change**.
