Dear [Name],

Thank you for your email to Commissioner McGuinness. I regret to inform you that due to the vast number of commitments in the Commissioner’s agenda it is not possible for her to meet with you.

However, the Commissioner has asked her head of cabinet, Peter Power, to meet with you. Should you wish to meet with Mr. Power, please contact his personal assistant, [Name of Personal Assistant] (copied above) in order to arrange a mutually suitable date and time for the meeting.

Kindest Regards,

[Name]
nutrition company which is operating 16 production sites in the Union and supporting customers in over 30 European countries. Our core competence lies in empowering farmers to select and manage plant nutrients in the most sustainable way – also by using digital tools and precision farming – to ensure profitability at farm level. As a company, we are committed to sustainable food production, manufacturing climate-friendly crop nutrition solutions and achieving zero-emission energy targets.

The current geopolitical and farming context makes it more important than ever that farmers are supported to ensure that every nutrient counts, and this is where Yara in Europe is working actively with farmers. From this perspective, and given your formidable knowledge of farming and agricultural policy and your recent comments on the use of fertilizers I would welcome an opportunity to meet either in person or online with you and your team, together with my colleagues responsible for the European government relations.

Please find two pdf documents attached, titled:
- Yara IE Meeting Proposal Commissioner McGuinness
- Making Every Nutrient Count.

I look forward to hearing positively from you and your office.

Yours sincerely,

Yara
