Meeting with UL

Querido Fernando, dear all:

I had a coffee today with [Article 4.1 b] and [Article 4.1 b]. [Article 4.1 b] has just joined the trade team at UL.

[not relevant]

They inquired about the relation between the sectoral and the horizontal discussions, [not releasable]. [Not relevant]

I also mentioned the problem of UL not recognising certificates of components when testing the final product. [Not releasable]

Finally, [article 4.1b] said [article 4.1b] was participating in the ESO-ANSI talks, next meeting will be here in August, but [article 4.1b] was a bit unspecific on the progress made so far.

Best regards,

[Article 4.1 b]
