Subject: Funding conditions in export credit markets: 2014 edition

Dear Commissioner Malmström,

I take pleasure in sending you here a letter concerning the financing of EU exports, a core activity of our member banks in collaboration with national export credit agencies.

We write to give our view of the challenges, risks and opportunities facing the activity today.

Also enclosed is a more technical annex prepared by our experts in the business.

I hope that you will find these documents to be of interest.

I will be most happy to discuss them with you in person, along with other issues, during a meeting (as already suggested to your office).

Yours sincerely,

Wim Mijs
