UK pleased with outcome of cultivation dossier, expressed their big concern as regards the pending authorizations which jeopardize the UK feed supply and enquired about the next steps as regards the review of the authorization system. Commissioner shares concern of UK as regards feed supply, which is relevant for whole EU, informs that proposal as regards the review of authorization system is scheduled for end April; objective is to preserve the single market and too avoid fragmentation of the risk assessment processes in EU. State Secretary concludes that proposal should not be as cumbersome as the approach agreed upon on the cultivation dossier.
