Tenders or requests to participate must be sent to: As in above-mentioned contact point(s).

I.2) TYPE OF THE CONTRACTING AUTHORITY AND MAIN ACTIVITY OR ACTIVITIES:
European institution/agency or international organisation.
General public services.
The contracting authority is purchasing on behalf of other contracting authorities: no.

SECTION II: OBJECT OF THE CONTRACT

II.1) DESCRIPTION

II.1.1) Title attributed to the contract by the contracting authority:
Creation of a database of test forms containing abstract/inductive reasoning test items for use in computer- and paper-based testing as part of the EU institutions’ personnel selection procedures.

II.1.2) Type of contract and location of works, place of delivery or of performance:
Services.
Service category: No 27.
Main place of performance: contractor's premises with delivery to EPSO's premises in Brussels, BELGIUM.
NUTS code: BE10.

II.1.3) The notice involves:
The establishment of a framework agreement.

II.1.4) Information on framework agreement:
Framework agreement with a single operator.
Duration of the framework agreement: Duration in year(s): 4.

II.1.5) Short description of the contract or purchase(s):
The European Personnel Selection Office (EPSO) is an inter-institutional office responsible for organising open competitions and other procedures for the selection of personnel on behalf of all EU institutions (i.e. the European Parliament, the Council, the European Commission, the Court of Justice, the Court of Auditors, the
Economic and Social Committee, the Committee of the Regions, the European Ombudsman and the Data Protection Supervisor) as well as for European Agencies.

The EPSO Development Programme (EDP), adopted in 2008, paves the way to major improvements in the format of all competitions to be launched as of 2010. In particular, the EDP outlines detailed changes for the pre-selection tests for permanent officials (administrators-AD-university graduate level and assistants-AST-secondary or post-secondary education level).

EPSO wishes to enter into a framework service contract for the creation of a database of test forms (i.e. comprehensive freestanding tests) containing abstract/inductive reasoning test items for use in computer- and paper-based testing as part of the EU Institutions' personnel selection procedures. In the framework contract, all contractual conditions are set out except for the actual concrete services, which will later be ordered as needed, either through a specific contract or through order forms. In line with the strategy of enlarging its range of cognitive testing, EPSO wishes to create a database of test forms, i.e. computer-based test items grouped as comprehensive free-standing tests. The test items within the test forms will be designed to measure problem-solving, dealing with complex concepts and developing strategies. The test items within the test forms will test the candidates' abstract reasoning ability. Using diagrams, symbols or shapes, the test items will test the candidates' ability to identify the underlying logic and to determine a solution.

II.1.6) Common procurement vocabulary (CPV):
79635000, 79600000.

II.1.7) Contract covered by the Government Procurement Agreement (GPA):
Yes.

II.1.8) Division into lots:
No.

II.1.9) Variants will be accepted:
No.

II.2) QUANTITY OR SCOPE OF THE CONTRACT

II.2.1) Total quantity or scope:
Given a heterogeneous annual candidate population of about 48 000 (2010 estimate), the initial requirement from EPSO is estimated at around 20 test forms to start with — both for the AD-candidate population as well as for the AST-candidate population — with 1 possible additional order of a comparable size during the running of the contract. Thus, the estimated maximum number of ordered test forms over the total duration of the contract would be 40 forms (each for the AD and the AST candidate group). In addition, EPSO estimates a maximum of 2 familiarisation training events for its own staff and 12 performance reports over the total period of the contract. The tenderers should, by means of psychometric principles, confirm the soundness of this estimate in their proposal. These figures are given only as an indication.

During the 3 years following conclusion of the contract, the contracting authority will be able to use the negotiated procedure without prior publication of a contract notice for additional contracts involving services similar to those assigned to the party awarded this contract by the same contracting authority.

II.2.2) Options:
No.

II.3) DURATION OF THE CONTRACT OR TIME-LIMIT FOR COMPLETION:
Duration in months: 48 (from the award of the contract).
