Meeting with SEA Europe (EU Shipbuilders) on TTIP maritime - 9 July

Please find below a summary of the above-mentioned meeting,

Participants
DG Trade: SEA Europe: SEA

SEA Europe had requested this meeting to further detail its interests in the TTIP negotiations. SEA Europe reiterated the importance for the EU shipbuilding industry to obtain selective new market openings in the US market. This refers to both the shipbuilding activity itself and the repair/reconstruction of vessels.

Europe indicated that it will continue to work to build a convincing file and will increase its efforts to gather both in the EU and in the US support in favour of an upcoming EU request in maritime transport.

DG Trade indicated that it would try to organise an informal meeting of member states, before the end of the month, in order to involve national governments as well.
