Cong. Pat Tiberi (R-Ohio) / Michael Fitzpatrick, GE / Martin Kayser, BASF*

Session 4

(Report: [Art.4.1(b)])

[Outside the scope of the request]

BASF's Kayser noted industry understood the differences between REACH AND TSCA – both do their jobs, and it is not a race to the bottom. He noted the industry re-labels products on both sides of the Atlantic even though the information doesn't change fundamentally. On endocrine disruptors: having an emerging definition would help.
