Subject: Fifth ISSG animal cloning meeting 29 June 10-12h Froissart 101 0/33
Attachments: draft of the IA on animal cloning28junio2012clean.doc; Summary of
 situation in MS - 28.06.2012.doc.doc; Summary of situation in TC -
 28.06.2012.doc.doc; Live animals identification and traceability
 Rev2.rtf; Draft Annex labelling legislation Rev4.doc; traceability on
 reproductive materials Rev3.doc;
 TableComparativespeciesidentification Rev1.doc

Dear colleagues,

Following my previous e-mail of 20 June, please find attached the draft impact assessment with the three first chapters and the annexes for tomorrow's discussion. We would like mainly to discuss with you the approach we have taken mainly in relation to the problem definition and the objectives.

In addition to the tomorrow's discussion, we would like to receive your comments and suggestions on this document before the 15 of July in order to have a nearly "draft "final" document" before the summer break. Of course this document would be modified taking into account other new inputs such as the new EFSA statement or GHK report.

Please find also attached the summaries of the questionnaires addressed to the Member states and third countries on animal cloning.

Thanking you in advance for your help
 Best regards
