

EUROPEAN COMMISSION
For the attention of
Commissioner Arias Cañete
Rue de la loi/ Wetstraat 200

B 1049 – BRUSSELS

Brussels, 29 February 2016

Dear Commissioner Arias Cañete,

It has been a pleasure meeting you at the end of last year to discuss about market design for the energy sector.

As agreed in this meeting, I am pleased to come back to you and inform you that EURELECTRIC is in the process of finalising a report that will present our views on what a European future-proof market design for electricity would require. We will adopt this report on the occasion of our next Board of Directors and would be pleased to present it to you immediately after its adoption, on 17 March afternoon, as our President, Mr Antonio Mexia, will be available in Brussels to meet you.

Looking forward to hearing back from you,

Yours sincerely,

Hans ten BERGE
Secretary General
