Dear Mr Rotherham,

Subject: Your application for access to documents – Ref GestDem No 2016/2345

We refer to your e-mails dated 22 April 2016 (17:07), 22 April 2016 (17:12), 27 April 2016 (20:45) and 29 April 2016 (13:50) in which you have made and clarified a request for access to documents.

We regret to inform you that no documents were found that would correspond to the description given in your application.

Indeed, as specified in Article 2(3) of Regulation 1049/2001, the right of access as defined in that regulation applies only to existing documents in the possession of the institution.

Given that no such documents have been identified, the Commission is not in a position to handle your request.

However, please kindly find below the replies to your questions.

Number of classified documents / Information Security Management System

Documents classified TRES SECRET UE/EU TOP SECRET, SECRET UE/EU SECRET and CONFIDENTIEL UE/EU CONFIDENTIAL are received, produced and stored in a number of Commission registries (secured areas) which are established in different buildings in Brussels, but also in Luxembourg and in some of the Joint...
Research Centre sites. Each registry has its own general logbook. Consequently, there are no single documents in the registries containing the number of documents held by the Commission that have been supplied by the United Kingdom Government.

However, we have collected data from the general logbooks of all the registries for the last four and a half years. The number of documents held by the Commission that have been supplied by the United Kingdom Government is presented in the following table:

Third party access to Information Security Management System

No third party has any access to classified documents held on the Commission's secure systems (in registries or on secure IT systems for classified documents). In case there is a need to release EU classified information to a third party, the Commission sends this classified information to a concerned third party in accordance with one of the following agreements on the exchange of classified information:

Where no security of information agreement is in place, EU classified information can be released to a third party only in exceptional cases, by an ad hoc Commission decision and only after consultation with the Commission Security Expert Group composed of Member States representatives. In the last decade there was just one case of such exceptional ad hoc release (N.B. thus released information had originated in the Commission).

Any classified information, obtained by the Commission from a Member State (e.g. UK), or a party listed above, can be released to a third party only with the prior written consent of the originator of classified information (e.g. UK Government).

List of recognised research entities whose researchers may submit research proposals potentially allowing access to confidential data for scientific purposes (in the framework of Community Statistics) may be found on the following link: http://ec.europa.eu/eurostat/web/microdata/overview.

Please note that ‘confidential data’, as referred to in the above-mentioned Regulation, is not classified information per se.
In accordance with Article 7(2) of Regulation 1049/2001, you are entitled to make a confirmatory application requesting the Commission to review this position.

Such a confirmatory application should be addressed within 15 working days upon receipt of this letter to the Secretary-General of the Commission at the following address:
