Dear Commissioner Hogan,

Please find attached an letter of invitation from 12 leaders of the largest French and International retail companies and the French Retail Federation (FCD), requesting a meeting with you on the 19th or 20th October.

We hope to meet you to discuss how retailers can be key actors in the “Food supply chain of tomorrow” and how fair competition and innovative partnerships can help boost the agricultural sector in the EU.

In this context I also attach an FCD briefing on the agricultural crisis , highlighting a need for much more transparency in the food supply chain and innovative partnerships to help support a fair price to farmers.

We look forward to meeting with you.

Sincerely,

[REDACTED]
