**Subject:** Project of a Magritte meeting at CEO level on the EU ETS and carbon pricing issues

Dear Ms. [REDACTED],

I'm writing to you on behalf of the Magritte Group for which I am in charge of the coordination and the preparation of an event in November.

The head of cabinet of Mr. Arias Cañete, Ms. Cristina Lobillo Borrero, has been informed last Friday and we also had contact with the secretariat of the Commissioner in order to check his availability in the view of a **future event dedicated to the EU ETS reform and carbon pricing issues**. The EU ETS reform has been put at the top of the priorities of the Magritte Group. In this context the CEOs would like to exchange their views with the Commissioner on the ongoing discussions and the specific needs of the energy sector. The following companies are expected to be represented at CEO level: Centrica, CEZ, EDP, ENEL, ENGIE, Fortum, Gas Natural Fenosa, GasTerra, Iberdrola, RWE (tbc).

This event would be built around several high level meetings, including members of the European Commission and the European Parliament. The expectation is high from the companies to obtain a meeting at commissioner level. We are still waiting for a response, both on the principle and on Mr. Arias Cañete's availabilities at the following dates : **21, 22 and 23 November in Strasbourg**, as a side event of the EU Parliament plenary session.

A similar request has been submitted to the Vice President Šefčovič's cabinet. The objective is to plan a joint meeting if the Commissioners so request or if it appears to be the best option in the agendas.

A prompt response (this week) regarding the availability of Mr. Arias Cañete and the dates envisaged would help us gather the maximum number of participants.

Do not hesitate to contact me should you need more information. I thank you in advance for your help.

Yours Sincerely,

[REDACTED]  
Senior Manager - European Affairs department
