Dear Ms I

You ask for information concerning a complaint, which according to your information another person has submitted to the European Commission.

As I already explained to Mr in my reply of 3 February we have an obligation to protect the complainant and his personal data, so I am not able to give you any details concerning a complaint, which a third party has submitted to the Commission and what might be the follow-up given to it.

In case you wish further information concerning a specific complaint submitted to the European Commission and you know who the complainant is, I would suggest that you address your request to the complainant who will then be able to decide what information he wishes to provide, if any.

Yours sincerely,

Pia Lindholm
