Subject: RE: PAHs - meeting with ETRMA + ECHA guidance

Dear , thank you again for giving us the opportunity to raise with yourself and your Colleagues a critical issue. Your Services understanding of what is at stake (technically, scientifically and economically) and your support are essential to make a sustainable progress on this road. I must stress that – independent from this very topic of PAHs restriction and its impact on recycling – we look forward to engaging into a dialogue with the Commission services on how to make REACH attain its goals while permitting to advance on the circular economy agenda. In other words, moving from hazardous content to a risk approach. Your good advices are always welcome.

We stay in touch.

Kind regards

Subject: PAHs - meeting with ETRMA (tentative dates) + ECHA guidance

Dear

We have identified some tentative dates for a meeting in which we could like to present you the ELT recycling situation in Europe.

Is any of these dates suitable to you and your colleagues: 19/10, 21/10 or 28/10 ?

PS: I have not received any news on the ECHA guidance. Is it still under discussion internally at the Commission?

Thank you,

Dear

The consultation has not been launched yet, we are still discussing internally a few points before its release for consultation by ECHA.

Regarding a meeting, I meant October, not sure what I was thinking about...

Best regards

Hello

Do you have any news regarding the ECHA/PAHS guidance document? We haven't heard anything so far.

Regarding the date to be proposed, you indicated "february"... it looks a bit too late... is it correct?

Have a good day,

Dear

I am all of this week in Helsinki and next week most of us will be very busy with the REACH committee and its preparation.
The draft of the guidance has not yet been put into consultation and we may still need a little more time to polish some aspects of the text with ECHA prior to this.

You will have ample opportunity to comment on the version that is submitted for consultation although I would be of course be happy to also hear about your concerns before hand.

I will contact you next week to try to find a date, but I would be grateful if you could suggest a few, possible from your side, for the first two weeks of February.

Best regards

Subject: PAHs - ECHA guidance

Dear

Do you have information about the ECHA guidance of the PAHs restriction? Do you think we can already start identifying a possible date for a meeting? The guidance will be subject to discussion and revision, it is therefore important for us, independently of the content of the draft version, to present you our case.

Best Regards,
