**Subject:** RE: Request for meeting - Circular Economy

Dear  
Thank you for your mail. I do understand and fully agree with your proposal to wait until after the Conference.  
As long as there will be room for us to bring –still in time- to your attention our requests , we can work as proposed.

In the meantime, I wish all a very nice week end,

Kind regards

**Subject:** RE: Request for meeting - Circular Economy

Dear

Thank your for your interest in our work on the new Circular Economy package. We would happily host you, but given that the public consultation will be (most likely) already open at the time, and our stakeholder conference just around the corner, could we suggest that we hold on with the meeting until the conference clarifies what issues yet to be discussed and communicated?

Kind Regards

---

**Importance:** High

Dear

As you may remember from previous communications, ETRMA is very committed to promoting the circular economy agenda.

Our Industry has been promoting the producer responsibility principle for the collection and recycling of tyres throughout the world –taking the best practices developed in the EU; or several of our tyre corporate members have been in the forefront of promoting new business models to increase retreading as the first step to increase the lifespan of truck tyres and positively contribute to a sustainable transport mode. These are just a few examples.

I would be delighted to meet with you to discuss the challenges ahead, in the framework of the revision of the circular economy package and share our views from a responsible industry perspective.

Could I suggest for a meeting the following dates: **June 1, 2, 8 or 9** –anytime

I thank you for your attention and wish you a very pleasant day.
