Subject: Re: PCI 8.1.2.2 - Paldiski LNG

Dear [REDACTED]

the formal adoption process will still take some weeks. Following the evaluation process, DG ENER has prepared a draft decision that was subject to the interservice consultations in the EC. The next step is the discussion on the draft decision with the CEF committee (consisting of the Member States representatives) that is planned for 17 Feb. After, the formal adoption process will start. Documents for that meeting have already been sent thus you might wish to contact the Ministry.

Thank you for the slide.

I look forward to seeing you on 15 Feb.
Best wishes,

[REDACTED]

Subject: PCI 8.1.2.2 - Paldiski LNG

Dear [REDACTED]

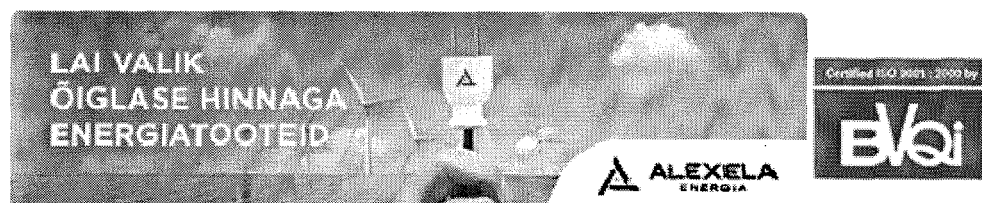

Please find enclosed the one page presentation of Paldiski LNG for the meeting on 15.02.

Also we would like to ask if You have any information or can give out any indication, when the decisions of 2. CEF Energy Call 2016 will be made known to the applicants?

Best regards
