**Subject:** 2050 Roadmap for an energy and carbon efficient European chemical industry

Dear Mr P [REDACTED],

Cefic, representing the European chemical industry, is currently preparing a '2050 Roadmap for an energy and carbon efficient European chemical industry'.

With this roadmap, the European chemical industry (assisted by Ecofys energy and climate consultancy) explores its long-term role in contributing to Europe's transition to a more energy efficient and low emission future. The roadmap is scheduled to be officially launched in March 2013.

In order to help us reflect on our conclusions in this roadmap, we envisage a series of informal meetings with a spectra of stakeholders and Commission DGs.

Mr William Garcia, Cefic Executive Director Energy & HSE, and Mr [REDACTED], Ecofys, would very much appreciate an opportunity to meet with you for an exchange views, in particular on the aspects related to your area of expertise, and would be grateful if you could find the time.

Should you not be interested in such a meeting, who would be the right person to talk to in DG Enterprise?

I will contact your office shortly to see if a meeting could be arranged.

Looking forward to hearing from you, I remain,

Yours sincerely,

[REDACTED]

EU Government Affairs Officer - Cefic (European Chemical Industry Council) - Avenue E Van Nieuwenhuysse 4 - B-1160 Brussels
