Dear [REDACTED], here is my list of substance experts for RAC 39. I am still waiting on BSC to nominate someone for mesosulfuron-methyl but anticipate they may not send anyone.
New to RAC will be [REDACTED] from United Phosphorous covering asulam. Her CV and signed statement of confidentiality are attached.
All the other observers have been before including [REDACTED] representing the Glyphosate task force for the glyphosate presentations.
Regarding the session on glyphosate has a decision been made as to how many observers will be allowed per STO for the presentation session.

Best regards

Dear [REDACTED],

Further to your question about the number of observers allowed per STO to the glyphosate discussion, we will allow **one ECPA expert** to be present at RAC 39.

At RAC 40 you may have two experts, but in sequence and not in the room at the same time.

Kind regards,
[REDACTED]
