Unit: ED/EXO/D2	

Dear Dr Dancet,

The Committee on environment, public health and food safety (ENVI) of the European Parliament is organising a workshop on **'EU's pesticide risk assessment system: the case of glyphosate'** on **24 May 2016 (Tuesday) from 12.30 to 14.45**, in the European Parliament in Brussels. Milieu Ltd - a Brussels based law and policy consultancy - is supporting the European Parliament in the organisation of the workshop.

On behalf of Mr Alojz Peterle, MEP, Co-Chair of the Health Working Group, ENVI Committee I would like to invite you to participate as a speaker for this workshop.

The purpose of the workshop is to provide background information and advice to the members of the ENVI Committee on the effects of pesticides, particularly with a focus on glyphosate, on human health. Conflicting reports have been published on the potential carcinogenic effects of glyphosate, and the aim of the workshop is to clarify the situation, to raise awareness on the issue and to open a debate.

The workshop will be structured into three parts; the first part will discuss the policy context and latest developments. The second part focuses on the challenges and options based on available research and evidence. The final part is dedicated to the perspectives from civil society and doctors on the issue. As a speaker, you would be expected to give a presentation of around 10 minutes on the following topic: **'ECHA's glyphosate evaluation'**. I attach a draft agenda for your reference.

I would be grateful if you could let me know at your earlier convenience whether you are available to speak at this workshop.

Should you have any questions, please do not hesitate to contact me.

Kindest regards,

[REDACTED]
