

**Subject:** Following up from the prep meeting on the CoM Investment Forum

Dear Eero,

It was good seeing you at the fringes of the prep meeting to the CoM Investment Forum.

As discussed, I am now also the secretary of the Gas DSO (DIST) Committee at Eurogas.

To this end, I would like to discuss with you and relevant colleagues our (active) involvement at the next London Forum.

I am copying the DIST Committee chairwoman Ms Eva Hennig. Let me kindly ask that both Eva and me are included in the general mailing lists for London but also in the 'small' list for the preparation of the agenda.

I copy Margot too, who kindly shared the draft agenda sent to the 'small' list last week.

Finally, as promised, in this micro website <http://www.gaswindandsun.eu/>, which was launched by Eurogas only yesterday (!) you can find some interesting info on the Ameland Island.

Click on research – innovation, or simply here: <http://www.gaswindandsun.eu/research-innovation.html>

Also this film about the Ameland Island is all about active citizens and sustainable local communities – gas is part of this system too:

[https://www.youtube.com/watch?v=5l97c8a6H\\_Q](https://www.youtube.com/watch?v=5l97c8a6H_Q)

Copying Mr Tullius who was present on the meeting on the CoM Investment Forum last week too.

Let's talk soon
