DG GROW representatives	██████████, ██████████
Representatives of other DGs	██████████, ██████████ (ENV)

Summary of meeting

The meeting was made on the request of ACEA in order to provide input on a new method for evaluating the RDE developed by them. Since the next RDE-LDV meeting was only scheduled for the end of the month, they wanted to inform us ahead of time about the new methodology (presentation available).

We agreed that this methodology should be presented during the next meeting of the RDE-LDV working group, but that it should not make part in any way of the finalised study by TNO on the methodologies, since it was not available on time.

ACEA promised to provide us a MATLAB tool to be able to study the details of the methodology (currently available).
