Subject: TTIP: meeting with AmCham France

Damien met with [Ant 4.1b] AmCham Paris.

They are keen to get the message across and the corporate world on board. Aware of negative vibes in the population at large, and motivated to get business speak up.

In that context, they are planning a conference opened by Minister Bricq and participation from politics and business. Want to have COM present.

Planned timing around 2nd half of May, but open.

Agreement to stay in touch on timing and focus of discussions at the conference.
