Subject: Notes - CBI meeting - Requesting info on HLWG

Carsten, a few notes for your record on the questions asked by CBI during the meeting we had earlier.
Amelia

- Within the 5 sub-working groups: How are EU-US contacts planned?
- What approach are the sub-working groups taking? Would separate agreements be a challenge for COM?
- UK went publicly in favour of a FTA. However, there is not much clarity on what to negotiate exactly. So in case we would go for an FTA, how would we bring in all the sensitive issues? (i.e. would it be realistic to include regulatory issues?)
- What does the COM consider to be "good" input from businesses?
- If we decide to go for a FTA, would we do a "scoping exercise" at the beginning?
