

Participants:
Cosmetic Europe (CE):
GROW.D:

The diagram consists of a vertical column of eight black dots on the left. From each dot, a horizontal bar extends to the right. The bars are of varying lengths and are colored black and white in an alternating pattern. The bars are connected to the dots by thin lines. The bars are of different lengths, with some being longer than others. The bars are connected to the dots by thin lines.

Endocrine disruptors

- CE asked about next steps for the ED proposals of COM and expressed their concerns about the still pending report on EDs under Cosmetic legislation. GROW explained that internal discussions on the rejected proposal in the pesticide area are on-going.
