15.1	Report on implementation of the MoU regarding Harmonisation of a Charging Capability for Mobile Phones	<b>Doc. <a href="#">30</a></b>

74. [REDACTED], on behalf of the MoU signatories, presented a progress report on the implementation of the MoU regarding a Harmonisation of Charging Capability for Mobile Phones:

- In the last six months of 2011 more than 90% of data-enabled new models of mobile phones offered the common charging capability
- A number of new compliant chargers have also been placed on the market

75. TCAM chairman thanked Mr [REDACTED] and the signatories for this report, and indicated that further monitoring during 2012 should make it possible to confirm these positive developments in an area which is closely followed by EU citizens and at the highest political level.
