1. **Identify the main components of the system.**

[REDACTED]

[illegible]

The diagram illustrates a network structure with nodes and connections. The nodes are represented by small squares, and the connections are represented by lines. The diagram is organized into a grid-like structure with multiple rows and columns. The nodes are arranged in a regular pattern, and the connections form a complex web between them. Some nodes and connections are highlighted in yellow, indicating specific areas of interest or activity within the network.

15.1	Report on implementation of the MoU regarding Harmonisation of a Charging Capability for Mobile Phones	Doc. 37

41. The Commission informed that manufacturers have sent a letter of intention in which they announced their intention to extend the effects of the MoU.
42. The Commission announced that a study is being launched to analyse the results obtained with the MoU and to consider further measures in the area (e.g. a new voluntary agreement or binding legal measures). With the support of VP Tajani, the study will also cover other electronic portable devices that could be interested by an extension of the scope. The study will be ready by mid-2014.
43. [REDACTED] informed that a task force is working on this topic and that a report will be ready after vacations.
44. [REDACTED] asked whether the MoU covered also wireless chargers.

45. The chairman replied that the evaluation only concerns the USB interface, but that other technologies may be accommodated within future measures considered in the study.
